

Year 1 news

Hello my lovely year 1!

I hope you are all enjoying this weeks 'Under the Sea' topic! I wonder if any of you have visited a beach lately and found any beautiful shells? Don't forget to send in all of the lovely things you are doing, I love seeing all of the brilliant things you are up to! Our school values for this term are 'happiness' and 'celebration' I would love to see and hear from your families how you are displaying these at home, in school and out and about. Keep being amazing Year 1!

Love from,

Mrs Hyde xxx and Mrs Rose xxx

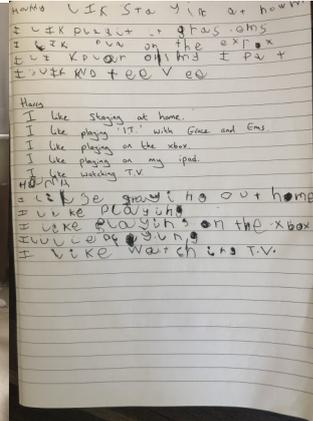

Super star shout out!

Alex— I really enjoyed your video and loved that you included your own animal idea too! Well done for writing your message in a bottle, Alex. I think I might have a confused face too if I didn't know who sent it! You sound like you are having lots of fun with this weeks topic, Alex! Well done super star!

Dominic— WOW! You are being a maths superstar with all of those exciting certificates, I'm so glad you are enjoying practising your maths skills! I loved your message in a bottle I think anyone would be very excited to find it! Well done, Dominic!

George C— I am so pleased to hear you had a fun week in school and were very excited to go back this week. Well done for doing your jobs in the morning and making sure the sunflowers and plants are watered and the lovely chickens are fed before school! I was so proud to hear that you had made your mummy a card and written her a special letter for her birthday, I know mummy absolutely loved it! Well done, George!

Harry— I am so impressed by the super writing you have been doing! The list of things you like doing sound very fun, Harry, and I am glad to hear you are having such a great time at home! Keep it up, Harry!

Spotted!

Exciting news! On Sunday evening I was cooking dinner and looked out of the kitchen window to see a very cute fox cub! It was being very playful and rolling around in the grass! I hope to see more and hopefully get a photo of them for you all to see as they are very beautiful indeed!

I have had quite a few visits from a robin this week and he enjoys diving into the grass then back up onto the shed roof. I think he has been trying to catch the worms that make an appearance when it's raining!
