

Year 2 News

Hello to our Wonderful Year 2s

I hope you are all well! I have had lots of brilliant emails from you this week! It has been fantastic to hear all about everything you have been getting up to!

Some of what has been sent to me has been included in this week's newsletter!

Mr Harley, Mrs Smith and the other adults from the Year 2 team!

Archie - You have been creating a fantastic boat out of wood with your grandad; we are looking forward to seeing it once you have painted it.

Oliver - It's great to hear that you are taking good care of your fish tank by cleaning it out and that you have found some newts in the pond.

Harry - It's great to hear that you have been so interested in the Titanic and you have been studying caterpillars.

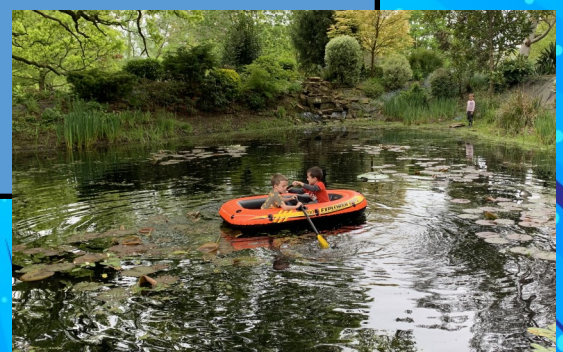

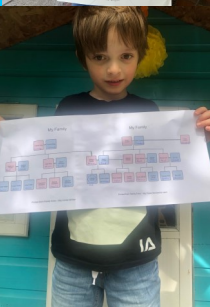

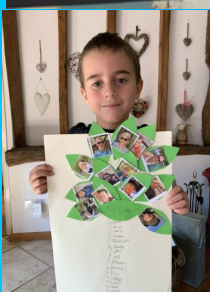

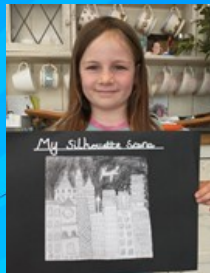

You have all been spending lots of time outside learning about Rudgwick and creating your family trees – well done boys.

Evie D - It's great to see you continuing to measure your sunflower, it's already 10cm tall! You have been doing some science experiments involving water. We've loved seeing that you have been taking on board some of the activities sent home—creating a brilliant family tree. Your postcards from the rainforest, inspired by Ottoline, look fantastic! Your silhouette artwork, also inspired by Ottoline, is really good too. Keep up the great work.

Martha - You have been very busy doing lots of different activities, it was nice to speak to you this week and find out everything you have been getting up to. You have been enjoying the Ottoline books and also creating lots of different arts and crafts projects. You have also been letting some butterflies go out into the garden and watching them feed on sugar water. Sounds great!

Sophie - What a fantastic birthday card for your younger brother - again your writing is coming along so well! Your duck diary is also looking brilliant! What a lovely caterpillar you have found outside too!

Charlie - You have been doing lots of cycling - 8 miles! Well Done! You have also been recording temperatures, making cakes, and decorating the house for your sisters birthday. It sounds like you had an interesting time creating a family tree!

Remember!

Keep emailing in - We do love hearing about everything you have been doing, whether it's work or just fun things!

Housepoints and star awards will be given!

Joke of the week! From Martha!

"What is a bee's favourite sweet?

Honeycomb!"
